Practice areas

[Real Estate](#)

Jacob Fuglbjerg offers broad advice on real estate and construction law, focusing particularly on technical advice in the construction process.

Jacob advises Danish and foreign clients on legal issues related to real estate, including business lease issues and transactions, and on construction law.

Jacob has a particular focus on and experience in advising on, negotiating and drafting contracts for parties involved in construction activities, in particular technical advisers, including in connection with large public and private construction projects.

Jacob has a structured and analytical approach when dealing with concrete issues. He is dedicated to providing well-documented solutions that add value for the clients.
